27: Trouble Breathing after an Auto Accident
28: A Problem at High Altitude
29: Infant with Respiratory Distress
30: A Young Woman with Severe Chest Pain
31: Antifreeze Ingestion and Unconscious
32: Sweet Urine
33: Leg and Chest Pain
34: Heart Attack with Shock
35: Heart Attack and Severe Shortness of Breath
36: Teenager with an Abnormal ECG
37: Wheezing and Shortness of Breath
38: Frequent and Copious Urination
39: Chronic Lung Disease and Ankle Swelling
40: Automobile Accident
41: Chest Wound, Tachycardia and Hypotension
42: High Blood Pressure and Murmurs
43: Very Thin and No Periods
44: Muscle Cramps
45: Sudden Onset of Difficulty Speaking
46: Malaise and a Broken Rib
47: Arthritis, Fatigue and Low Blood Pressure
48: Tremor and Change in Gait
49: Right Upper Quadrant Pain and Jaundice
50: Pneumonia and Cyanosis
51: Erectile Dysfunction
52: Treatment with Cardiac Glycoside
53: Joint Pain during an Airline Flight
54: Exercise Rehabilitation after a Heart Attack
55: Left Hand Weakness and Tremors
56: College Football Player with Enlarged Breasts

Adult Respiratory Distress Syndrome
Hypoxic Hypoxia
Acute Respiratory Distress Syndrome
Cocaine and Coronaries
Metabolic Acidosis and Anion Gap
Renal Glucose Handling and History
Deep Venous Thrombosis and Embolism
Cardiogenic Shock and Fick
Pulmonary Edema, Starling Forces
WPW and Normal Conduction
Asthma and ANS
Diabetes Insipidus, Free Water Clearance
COPD, Pulmonary Hypertension, Failure, Resistance
Baroreflex with Hypovolemia
Tension Pneumothorax
Atrial fibrillation, Increase Pulse Pressure
Anorexia Nervosa and Menstruation
McArdle's Disease
Stroke, Wernicke's and Broca's Areas
Renal Failure and Osteodystrophy
Secondary Adrenocortical Insufficiency
Parkinson's Disease
Acute Cholecystitis and Jaundice
Ventilation/Perfusion Mismatch
Erection Physiology
Digoxin Action
Sickle Cell Anemia
Exercise and Coronary Blood Flow
ALS
Androgens
57: A Three-Year-Old Boy with Difficulty Walking  
Muscular Dystrophy  
58: High Blood Pressure in a Toddler  
Coarctation of the Aorta  
59: Attempted Suicide with Automobile Exhaust  
CO and Hemoglobin  
60: Diagnosis of Myocardial Infarction  
Troponins  
61: Worsening Shortness of Breath, Cough and Blue Fingers  
Pulmonary Fibrosis  
62: Slow Pulse Rate and Unusual Neck Pulsations  
Complete Heart Block  
63: A Murmur and Large Pulse Pressure in a Three-Year Old  
Patent Ductus Arteriosus  
64: Tired, Weak, and Feeling Cold  
Hypothyroidism  
65: Collapse of a Marathon Runner  
Hyperthermia and Exercise Blood Flow  
66: Muscle Spasms and Cramps Following Thyroidectomy  
Hypoparathyroidism  
67: Jaundice and Stomach Distention  
Alcoholic Cirrhosis  
68: Electrolyte Disorder in Heart Failure  
Hyponatremia  
69: Ventricular Premature Beats after a Heart Attack  
Arrhythmia  
70: Diuretic Therapy for Extreme Shortness of Breath  
Loop Diuretic and Na-K-2Cl Mechanism  
71: Partial Loss of Vision  
Pituitary Adenoma and Bitemporal Hemianopsia  
72: Trouble Swallowing, Chest Pain and Regurgitation  
Achalasia  
73: Headaches, Weakness, and High Blood Pressure  
Primary Hyperaldosteronism  
74: Diabetes in an Adult  
Insulin Resistance and Treatment  
75: Hypercalcemia  
Primary Pulmonary Hypertension
